MANISH SUNKAPUR

Product Manager & AI Product Specialist (Enterprise SaaS, Industrial AI & ERP/MES Workflows)

Bengaluru, India +91 82176 12492 sunkapurmanish@gmail.com linkedin.com/in/manish-sunkapur

PROFESSIONAL SUMMARY

Results-oriented **Product Manager & AI Product Specialist** with 6+ years of experience leading end-to-end Product Lifecycle Management (PLM) for B2B enterprise software, AI machine vision platforms, smart devices, and complex ERP/MES-connected workflows. Expert at driving product discovery, authoring PRDs, writing user stories, grooming backlogs, and delivering cloud-hosted and on-prem production tracking software. Proven track record of architecting cloud/SQL data interfaces, executing successful Smart Camera AI product launches, driving feature adoption, and bridging enterprise customer needs with engineering execution.

CORE PRODUCT COMPETENCIES

Product Strategy & PLM: Product Roadmaps, PRDs/FRDs, MVP Definition, Feature Prioritization, Competitor Analysis, GTM Strategy

Agile Execution: Backlog Grooming, Sprint Planning, User Story Mapping, Jira/Confluence, UAT & Defect Tracking, Release Mgmt

AI & Data Integration: Computer Vision AI, Edge-to-Cloud Workflows, SQL Schemas, REST APIs, ERP/MES Data Architecture

Growth & Adoption: Product Discovery, Stakeholder Alignment, Feature Adoption Analytics, Customer Onboarding, UX Improvement

PROFESSIONAL EXPERIENCE

Senior Product Specialist & Technical PM | DataSensor India / Qualitas Tech

Apr 2024 – Present

- **ERP/Cloud Solutions & Production Tracking:** Spearhead product requirements, system design, and delivery of cloud-hosted and on-prem ERP-connected production tracking, traceability, and shop-floor monitoring modules for tier-1 manufacturing clients.
- **Product Discovery & Requirements Elicitation:** Conduct deep-dive customer discovery workshops with plant managers, IT/enterprise architects, and operational SMEs to define functional requirements, PRDs, user stories, and system boundary conditions.
- **API & Data Architecture Specification:** Define REST API contracts, database schemas (local SQL to cloud synchronization), and structured data exchange protocols connecting shop-floor SCADA/MES with enterprise ERP systems (SAP, Oracle, custom ERPs).
- **Feature Adoption & Workflow Optimization:** Analyze post-deployment telemetry and feature adoption metrics on cloud dashboards, driving continuous UX/UI iterations and training initiatives that boosted daily active usage across enterprise clients.
- **POCs, Validation & UAT Execution:** Lead Proof-of-Concept (POC) planning, risk feasibility analyses, and UAT sign-off criteria; bridge technical engineering teams with business stakeholders to guarantee seamless software deployment.

Marketing Manager (Product & Growth) | SensoVision Systems Private Limited

Aug 2022 – Mar 2024

- **Smart Camera AI Product Launch:** Owned the cross-functional launch of SensoVision's flagship AI Smart Camera, translating computer vision research models into commercially viable, edge-deployed inspection product packages.
- **GTM Strategy & Positioning:** Developed Go-To-Market messaging, technical collaterals, application narratives, and value-proposition decks that accelerated customer trial conversions and expanded market reach in industrial automation.
- **Product Feedback Loop & Enhancement:** Established structured customer feedback loops post-launch, gathering shop-floor operational insights to feed directly into engineering product backlogs for software and optical hardware enhancements.
- **Cloud & SQL Inspection Dashboards:** Defined reporting and dashboard requirements for local SQL inspection data and cloud-connected analytics, enabling real-time yield monitoring and quality reporting for enterprise plant management.

PROFESSIONAL EXPERIENCE (CONTINUED)

Sales Engineer | KEYENCE India Jun 2021 – Jul 2022

- **Technical Discovery & Problem Translation:** Analyzed complex manufacturing applications across sensors, machine vision, and laser measurement systems, mapping constraints into tailored technical solutions.
- **Feasibility & Application Trials:** Conducted live technical demonstrations, feasibility testing, and sensor validation trials on customer assembly lines to prove application ROI and overcome technical barriers.
- **Industrial Sensor & Data Capture:** Built extensive domain experience in shop-floor sensing, high-speed measurement, inline quality inspection, and machine-level data capture workflows.

Business Development Associate | BYJU'S Oct 2020 – Jun 2021

- Conducted structured customer discovery, consulted clients on technology-enabled learning solutions, documented requirements, and executed sales conversions across product offerings.

Campus Manager (Operations & Growth) | Zomato Jan 2020 – Oct 2020

- Coordinated stakeholder onboarding, merchant operations, and growth campaigns across campus networks, leveraging user feedback and data to drive activation and engagement.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- **Atlassian Jira Agile Management:** Certified / Proficient in Jira Software, Confluence, Backlog Grooming, Sprint Planning, and Agile Frameworks.
- **McKinsey Forward Program:** Completed McKinsey & Company's flagship program covering Structured Problem Solving, Digital & AI Essentials, Effective Leadership Communication, and Adaptability.

SELECTED MANUFACTURING & INDUSTRIAL AI PRODUCT EXPOSURE

- **ERP & Cloud Production Tracking:** Real-time production tracking software, cloud dashboards, yield management platforms, and enterprise ERP/MES integration (APIs, SQL data pipelines).
- **Automated Machine Vision & AI:** Deep-learning defect detection, surface quality inspection, character recognition (OCR), and dimensional measurement.
- **Industrial Traceability & Mobility:** Barcode/AIDC, RFID tracking, edge-to-cloud data synchronization, rugged mobility, and shop-floor automation workflows.

TOOLS, TECHNOLOGIES & PLATFORMS

Product & Agile Management: Jira, Confluence, Miro, Notion, Lovable, Figma, PRD Writing, Backlog Grooming, Sprint Planning, User Story Mapping

Cloud, ERP & Data Integration: Cloud Analytics Portals, ERP/MES Interfaces, SQL (Querying & Schemas), REST APIs, Postman, Power BI

AI & Productivity Tools: Machine Vision Suites, ChatGPT, Claude, Gemini, Salesforce, HubSpot, MS Office Suite

EDUCATION

MBA – Marketing & Systems Management | Dayananda Sagar Institutions, Bengaluru 2020

B.E. – Information Science & Engineering | SDM College of Engineering & Technology 2018
